

# WEB STORE DISCOVERY QUESTIONNAIRE

School districts love the RevTrak Web Store because they can use it to conveniently collect all their common student payments from one easy location. Below is a list of some of the types of payments schools collect. The RevTrak Web Store collects required and optional fees, making it easy to track all fee payments. Which of these payments would you like to design your Web Store to support?

Once you've filled out this list, your RevTrak account executive will share examples of other schools that use these fee types, and we'll walk you through what your Web Store could look like.

- Child Care**
  - Before & After School Care
  - Preschool
  - Pre-K
